**JACKSON HEART CLINIC TO CELEBRATE THE GRAND OPENING OF NEW
AMBULATORY CENTER AND MEDICAL OFFICE BUILDING**

What: Jackson Heart Clinic Cardiovascular Ambulatory Surgery Center and Medical Office Space
Ribbon Cutting and Grand Opening

When: Tuesday, August 8, 2023

Where: 185 Medical Parkway
Flowood, MS 39232

Jackson, MS – Jackson Heart Clinic, P.A. is excited to celebrate the ribbon cutting and grand opening of our new cardiovascular ambulatory surgery center and medical office space in Flowood. The medical office building will house Jackson Heart and Vascular Center, LLC., the Jackson Heart Clinic, P.A. office (to include an imaging center as well), and other medical clinics. We will continue to serve patients at our Madison, Dominican Plaza, Brookhaven, and Ruleville offices as well.

“Watching Jackson Heart Clinic grow over the years, moving from the West tower at the hospital, to the Dominican Plaza, adding additional locations throughout the state (including Madison, Flowood, Brookhaven and Ruleville), and now expanding with a medical office in Flowood, has been a huge blessing for all of us. As we continue to serve patients, our mission remains the same: Jackson Heart Clinic is a unique team of independent cardiovascular specialists committed to providing comprehensive and compassionate care to the patients and families we serve. Our mission is to set the standard in the delivery of quality, personalized care. We believe the needs of our patients come first.” – Stephanie Carr, CEO of 20 years with JHC.

Jackson Heart Clinic was established in 1973 by Drs. James C. Hays and James L. Crosthwait. Along with Dr. Quinton H. Dickerson, these three physicians were instrumental in the formation of the Mississippi Heart and Vascular Institute and the opening of the cardiac catheterization laboratory at St. Dominic's Hospital.

“We have enjoyed serving Rankin County residents for many years and will continue to do so with the expansion of our practice in Flowood, consisting of up-to-date cardiovascular technology, while maintaining our high standard of care.” – Clay Hays, Jr., M.D.

The clinic employs over 100 personnel including nurses, medical technicians, and administration; it is also one of the largest cardiology groups in the state of Mississippi, which consists of board-certified cardiologists that cover all realms of specialties such as general and invasive cardiology, peripheral artery disease, and electrophysiology. The new Jackson Heart Clinic Ambulatory Surgery Center and medical office space is an exciting addition to this legacy.
